## **Rock and Roll**

**By Lynn Goldsmith**

**ABRAMS; 304 PAGES; \$50**

Mick Jagger strutting and outrageous, Devo posing in plastic suits, Dylan in intense close-up, Springsteen beside a wall of junkyard hubcaps, James Brown drenched in sweat - photographer **Lynn Goldsmith** has captured artists on- and offstage for magazines including Time, Life, Newsweek, Rolling Stone, Sports Illustrated and People. This stunning collection of her superb work shows rock's bombast and spectacle along with its sensitive side in full color and black-and-white, with full-page head shots and double-spread panoramas. Captions are discreetly at the back, so nothing interrupts the visual impact as one pages through.
